SUMMARY

Full stack software engineer with 1.5 years of experience in JavaScript-based programming. Possesses a keen eye for detail and a passion for developing innovative and user-friendly web experiences. Seeking to employ creative solutions, empathy, and design expertise to improve user experiences across the web.

TECHNICAL PROJECTS

IMPASTA SYNDROME
an app for storing and sorting through gluten-free recipes
- Utilized JSON web tokens and localStorage to store encrypted user data.
- Designed a fun and unique in-browser experience using Vanilla CSS.
- Dynamically added lists to input forms allowing users to store ingredients and instructions for recipes.

GROOMSMART
an app for managing your pets' grooming appointments
- Curated a branded, professional user experience using Vanilla CSS.
- Designed backend server on Ruby on Rails framework with ActiveRecord responsible for returning and persisting data.

MY GARDEN CENTER
an app for keeping track of your houseplants and organizing their care instructions
- Built and seeded a database using Ruby
- Employed Sinatra to communicate between a React.js frontend and Ruby backend

EXPERIENCE

CHILDCARE PROVIDER
PRIVATE FAMILIES - CHICAGO, IL | OCT 2018 - APRIL 2021
- Lovingly provided hands-on solutions and care to demanding clients between the ages of 6 months - 9 years.
- Carefully followed parents' expectations and requirements with agility; troubleshot care plans accordingly.
- Fostered safety and assessed quality of environment for a child with special needs.
- Regularly exercised resilience, attention to detail, and de-escalation.

PROJECT MANAGER & KEYHOLDER
MOJO SPA - CHICAGO, IL | OCT 2016 - SEPT 2018
- Built a custom CRM using Microsoft SharePoint to manage client interaction lifecycle, which increased client retention by 20%.
- Analyzed company's online store and utilized Shopify's front-end software to streamline customers' user experience.
- Managed robust inventory system to ensure the availability of raw ingredients used for in-house production of skincare and beauty products.
- Successfully supervised and collaborated across an 8-person team in preparation and execution of off-site retail events.
- Anticipated customer needs and provided high quality service while upholding brand standards and values both in-person and via the company's social media platforms.
